Dear Sir/Madam,

I am writing to express my interest in the doctoral program in the Computer Science at Russian universities involved in this project.

Thanks to the swift progress of my Bachelors and Masters degrees, it is glaring that studying and doing research are endeavors I would like to engage in even more. While studying for my BSc in Electrical & Electronic Engineering at Suleyman Demirel University, I developed a keen interest in the interaction between electronic systems and their environment (embedded systems) and I found this very intriguing and exciting. After my Bachelors, I pursued a Master's degree in Computer Graphics at Hacettepe University, which I will complete in December 2021. Also, there I worked on combination of IMU sensors and embedded systems for human motion analysis and simulation.

I believe that good place to continue my academic career in Computer Science as it relates to Computer Graphics, Image Progressing, Motion Analysis at the universities which has good university ranking in Russia. I consider it a vibrant experience to get the opportunity to meet students from all over the world and learn about their culture and values. Considering the pedigree as well as the content of the Master's degree in Computer Graphics at Hacettepe University, combined with the knowledge I have garnered from my previous studies, I am confident that this Ph.D. brings me a step closer to my goal of becoming a academician. I believe that I am very diligent and a highly motivated student; while studying my Bachelors and my Masters, I did not fail any exam or fail to turn in any due assignment. I am certain to push through with the dedication I have always worked with to accomplish my goals and gain more knowledge and insight into computer science.

Studying Computer Science is an oppotunity I would love to dedicate myself too wholeheartedly, and I hope that during my stay in Russia, I will be able to contribute to the community in the best way that I can. I hope to be given a chance, as I am confident that I am capable of meeting and even exceeding your expectations.

Thank you for considereing my application.

Yours sincerely,  
Cagin Agirdemir
